<u>Tunica Saxifraga</u> . Small pink flowers in profusion all summer. Nice for rock garden or low border. 6 inches tall. Strong field plants. -----	.45	3.00	20.00

The one year old, transplanted plants marked thus # can not be guaranteed true to name as they have not yet bloomed and until they do we can not find and discard any possible rogues. However, they are all grown from the finest seed obtainable, and, in the past, we have had very few untrue plants. We feel sure that you will be perfectly satisfied with any of them.
